PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of hands-on experience across the Software Development Life Cycle (SDLC), developing and maintaining production-grade web applications in SaaS, EdTech, and Government domains using the MERN stack (MongoDB, Express.js, React.js, Node.js) and modern JavaScript (ES6+). Contributing to the live Directorate of Technical Education (DoTE), Tamil Nadu Admission Portal, supporting real applicant data for the 2026–27 academic year. Proficient in RESTful API development and integration, database design, JWT authentication, Role-Based Access Control (RBAC), and responsive UI development. Experienced working in Agile/Scrum environments, translating business requirements into scalable solutions, and optimizing application performance through effective debugging and problem solving.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, SQL
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Material UI, Responsive Web Design, React Router, React Hooks, Axios
- **Backend:** Node.js, Express.js, RESTful API Development, REST API Integration, MVC Architecture
- **Databases:** MongoDB, MySQL, PostgreSQL, Prisma ORM, Database Design
- **Authentication & Security:** JWT Authentication, Role-Based Access Control (RBAC), OAuth 2.0, bcrypt, CORS
- **State Management:** Redux Toolkit, React Context API
- **Tools:** Git, GitHub, npm, Vite, Postman, VS Code, Claude
- **DevOps & Deployment:** Docker, CI/CD, Vercel, Render, Hostinger
- **Concepts:** SDLC, Agile & Scrum Methodology, CRUD Operations, API Integration, Production Deployment, Debugging, Performance Optimization, Problem Solving, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

SAS Techno Solutions | Full Stack Developer | Coimbatore, Tamil Nadu | Jun 2025 – Jul 2026

Project: TN Polytechnic Admission Portal — Government EdTech Platform (DoTE, Tamil Nadu)

Tech Stack: React.js | Node.js | Express.js | MySQL | JWT Authentication | Role-Based Access Control (RBAC)

- Developed and maintained the TN Polytechnic Admission Portal, a production-grade government application for the Directorate of Technical Education (DoTE), Tamil Nadu, supporting the 2026–27 admission process.
- Built responsive frontend modules using React.js for student registration, application submission, document management, and real-time admission status tracking.
- Developed RESTful APIs using Node.js and Express.js to support applicant registration, document uploads, admission workflows, and backend integration.
- Designed and optimized MySQL database schemas to manage applicant records, institution data, seat allotment, and admission workflows.
- Implemented JWT-based authentication and Role-Based Access Control (RBAC) to secure access for students, institutions, and administrators.

Project: ZuviChat — WhatsApp SaaS Communication Platform

Tech Stack: Typescript | Node.js | Express.js | PostgreSQL | JWT Authentication | Tailwind CSS

- Developed ZuviChat, a multi-tenant SaaS platform enabling businesses to manage WhatsApp-based customer communication and marketing campaigns.
- Built for real-time chat, contact management, campaign dashboards, and messaging workflows.
- Developed RESTful APIs using Node.js and Express.js to manage messaging, contact synchronization, campaign scheduling, and user operations.
- Designed PostgreSQL database schemas to efficiently store chat conversations, contacts, campaign data, and user information.
- Implemented JWT-based authentication and secure session management for authenticated platform access.

- Developed reusable React components for chat windows, message lists, campaign forms, and dashboard widgets, improving maintainability.
- Integrated bulk messaging workflows and scheduled campaign automation to streamline business communication.

Project: Learning Management System (LMS)

Tech Stack: React.js | Node.js | Express.js | MySQL| Context API | Tailwind CSS | Role-Based Access Control (RBAC)

- Developed a Learning Management System (LMS) for educational institutions with course management, learner progress tracking, and role-based access.
- Built course player, chapter navigation, progress tracking, quiz, and assignment modules to enhance the online learning experience.
- Developed virtual classroom features supporting live class scheduling and student access management.
- Designed RESTful APIs with pagination and filtering to efficiently manage courses, learners, assignments, and analytics.
- Built dashboards to monitor learner progress, course completion, and academic performance.
- Integrated secure file upload functionality for lecture videos, PDFs, presentations, and learning resources.
- Managed global application state using React Context API for course content, quizzes, and learner progress.
- Refactored reusable React components to improve application scalability, consistency, and maintainability.

Project: Examination Management System (EMS) — Academic Platform

Tech Stack: React.js | Node.js | Express.js | MySQL | JWT Authentication | Role-Based Access Control (RBAC)

- Developed an Examination Management System (EMS) to streamline examination scheduling, administration, and academic evaluation.
- Built modules for hall ticket generation, online examinations, automated result processing, and grade management.
- Developed secure online examination features supporting timed assessments, answer submission, and automated evaluation.
- Designed normalized MySQL database schemas for students, faculty, examinations, courses, and academic records.
- Implemented JWT authentication and Role-Based Access Control (RBAC) to secure student, faculty, and administrator portals.
- Developed RESTful APIs for examination creation, submission handling, result publishing, and academic reporting.
- Built administrative dashboards for managing examinations, student records, faculty information, and results.
- Collaborated with faculty members during requirement analysis, testing, debugging, and post-deployment support.

INTERNSHIP EXPERIENCE

Wipro Technologies | Intern | Jan 2025 – Apr 2025

- Completed a project on **Virtual Desktop Infrastructure (VDI)**, gaining hands-on experience with virtualization, virtual machines, and enterprise desktop environments.
- Assisted in system deployment, configuration, testing, and troubleshooting of VDI environments.
- Gained foundational exposure to virtualization technologies, cloud infrastructure, and enterprise IT operations while working in a collaborative team environment.

Blackstone Infomatics| Intern | Aug 2024 – Sep 2024

- Built a Flipkart-inspired MERN e-commerce platform with responsive UI, JWT auth, and RESTful APIs for product catalog and order management using Vite + React.

EDUCATION

- **Master of Computer Applications (MCA)** | Erode Arts and Science College, Tamil Nadu | 2023 – 2025
- **Bachelor of Science (B.Sc.) in Computer Science** | Gobi Arts and Science College, Tamil Nadu | 2017 – 2020
